

CREEDMOOR®

CHASING PRECISION TOGETHER - SINCE 1979!

2018
RELOADING & HOLIDAY CATALOG

ANNEALING MADE PERFECT MARK 2 INDUCTION ANNEALING MACHINE

After the huge success of the 1st generation, the Mark 2 models are finally here! Annealing is easier than ever with adjustable power and time settings already pre-programmed on the machine. This allows small and very precise increments in annealed neck hardness to ensure consistency and lengthen the life of your brass. The AZTEC MODE is also included and ready to use. By simply sacrificing a single piece of brass, AZTEC allows you to calibrate the settings to your specific cartridge and lot if the settings aren't already published online.

AMP1M2 \$1395.00

ANNEALING MADE PERFECT MATE AUTO FEEDER

The Annealing Made Perfect Mate Auto Feeder takes the already impressive AMP Annealing Machine to the next level. If you have a Dillon Case Feeder, just sit back and watch the AMP Mate do all the work and you won't have to remove hot brass from the pilot ever again. Even if you don't have the Dillon Case Feeder, all you need to do is keep the tube hopper filled with brass and watch the AMP Mate do the rest.

AMPMAT \$299.95

CREEDMOOR® BRASS WAX

A new finger applied case wax that has extreme lubricity. Our brass wax is non-toxic, made with food grade materials, and will not tarnish your brass. Simply apply a small amount (a little goes a long way) to the inside and the outside of the case neck to reduce any potential sticking or galling during resizing. After resizing, simply wipe off the wax and continue loading.

CSBW17 \$8.95

CREEDMOOR® .223 and .30 CAL. LOADING BLOCKS

These extremely durable loading blocks are a must for any reloader.

FEATURES:

- The loading blocks can be washed in your dishwasher.
- We made them white so you can see if you spilled any powder.
- Chamfered hole for easy brass placement.
- Grooved sides for easy grip.

CSBLK1 .223 (25)	\$11.95	CSBLK1 .223 (50)	\$14.95
CSBLK2 30CAL. (25)	\$11.95	CSBLK2 30CAL. (50)	\$14.95

AMP MATE STAND

If you have the Annealing Made Perfect Machine and the Mate AutoFeed, this stand is the perfect addition for your annealing system. The 1" pole is designed to support the Dillon Casefeed so that you can sit back and be mesmerized while your brass is being annealed.

The base is 8.8"x8.8". Made from 6061-T651 aluminum.

AMP-STAND \$98.95

DILLON CASEFEED ASSEMBLY W/O PLATE

The Dillon Casefeed helps to make sure your AMP MATE is fed brass while you sit back and watch the machine do all the work. AMP MATE STAND and Casefeed Plates are sold separately. See page 13.

DIL650CFA \$200.00

CREEDMOOR®

ANNEALING MADE PERFECT PILOT HOLDER

The Creedmoor Annealing Made Perfect Pilot Holder can hold ten different pilots and your brass shell holder grip. The holes are cut perfect to keep the Pilots upright so you can easily find which one you are looking for to make changeover fast and easy. The Creedmoor Annealing Made Perfect Pilot Holder isn't just a great looking accessory for your reloading bench, but it's a great way to keep things organized. Dimensions: 7.75" x 4.5" x .75"

CAPH \$22.95

CREEDMOOR® LUBE RACK

Our lube rack was designed to quickly and consistently lubricate cases with a spray type lubricant before sizing. Cases are offset in the rack to allow uniform application of spray lube from both sides of the rack. Made from a red and white polyethylene, our lube rack is dishwasher safe which means cleaning is a breeze. Available in .223 and .308.

CSLR \$24.95

BLKMB181 Reg. \$138.65 SALE \$119.95

**L.E. WILSON
TRIMMER/
CREEDMOOR
PLATFORM COMBO
CSWCMB181
Reg. \$174.90
SALE \$159.95**

New Stainless long lasting finish with Micrometer adjustment. Larger stop screw adjustment from 3/8" (old) to 1/2" (new) with increased width on Stop Nut. Makes for a firm stop. Coated with black oxide for a long lasting durable finish. Major adjustment in the Stop Screw and fine adjustment by increments of .001 with the Micrometer. NEW 304 Stainless Steel Handle included with Micrometer Trimmer. Made in the U.S.A. with American Steel. Power Adapter compatible.

WILRKIMS \$139.95

The Creedmoor Case Trimmer Platform is a perfect addition to your reloading bench. The platform is a mounting board for the L.E. Wilson case trimmer which can store 9 different case holders and comes with a polymer tapping block for knocking cases out of the holder. The platform also has four rubber feet to secure it to your bench while trimming.

CSWTP \$34.95

L.E. WILSON CASE HOLDER

WILNCH (NEW)	\$11.95
WILCH (FIRED)	\$11.95

L.E. WILSON INSIDE NECK REAMER

Thick necks can cause high chamber pressures and erratic shooting. Neck reamers remove excess neck material to ensure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the trimmers in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases. Knob-style handle included.

WILINR \$29.99

**L.E. WILSON STAINLESS STEEL BULLET SEATER
W/ MICROMETER**

The most accurate and easiest to use straight line dies on the market. The Wilson Bullet Seater takes the thread out of the seating operation and puts the bullet directly in line with the case before the seating operation begins. Major seating adjustments can be made with the 3/8"-24 threads in the cap. A built-in micrometer seating depth adjustment feature with an easy to read scale in .001 graduations.

Seating stem made with a very tight tolerance with the bore hole.

WILSSBS \$98.95

L.E. WILSON CHAMBER TYPE BULLET SEATER

A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional (7/8"-14) bullet seating die. Seating depth adjustments are made by turning the screw inside the cap (3/8" - 24 threads).

WILBS \$49.95

L.E. WILSON CASE TRIMMER KIT

- New Stainless long lasting finish
- Coated with black oxide for a long lasting durable finish.
- Major adjustment in the stop screw
- Made in the U.S.A. with American Steel
- Power Adapter compatible

WILRKITU \$119.95

L.E. WILSON DEBURRING TOOL .17 TO .45 CAL

All cases should be case mouth deburred after trimming and neck turning. Tools are double-ended with standard 45-degree flutes that debur/chamfer the inside and outside mouth of the case. They will work on cases from .17 to .45 and .50 caliber. Female end is hand filed and each tool is inspected 3 different times through the manufacturing process.

WILDBTREG \$19.95

L.E. WILSON CASE GAGE

One piece gage that will check overall length to indicate the need for trimming, datum to head length to assure correct headspace and to prevent over sizing. Available for most popular rimless cases.

WILCG \$26.95

**L.E. WILSON PRIMER POCKET REAMER
(SMALL OR LARGE)**

Used in conjunction with the Case Trimmer to remove the primer pocket crimp on military cases. The finished result is a nice rounded entry for primers. Unlike some tools, this tool will not distort the case head. Specify large (.210) or small (.175) when ordering. Comes with a knob style handle.

WILPRS or WILPRL \$36.95

**L.E. WILSON CASE GAGE DEPTH
MICROMETER**

Every reloader should know exactly how much your Full Length Sizing Die is pushing back the shoulder. With the NEW Case Gage Depth Micrometer you can do just that! It has never been easier to measure your cases headspace before and after sizing. The Depth Mic allows you to slip the micrometer perfectly over the top of the gage with your case inserted into the gage and take a measurement. Graduations of .001. Comes with a Gage Block. One size works for all L.E. Wilson Gages.

WILCGM \$105.95

CREEDMOOR

REDDING ULTRAMAG

PRESS

The ULTRAMAG features a huge 4-3/4" frame opening and 4-1/8" of usable ram stroke, making it ideal for loading oversized cartridges such as the old Sharps "Buffalo Cartridges" and British "Nitro-Express" rounds. Its unique long link compound leverage system has more mechanical advantage over a greater distance than any other reloading presses on the market. This makes "child's play" of difficult case forming operations.

REDD70000 \$319.95

MATCH GRADE MODEL 3BR POWDER MEASURE

The Match-Grade Model 3BR was created to be the ultimate powder measure... "out of the box" match ready! Since its creation, this powder measure has been helping Silhouette shooters and Benchrest shooters win matches and set new records.

REDD3500 \$165.95

REDDING COMPETITION MODEL BR-30 POWDER MEASURE

The Competition Model BR-30 Powder Measure is truly a competition model with some very special features. One of these features (the drum and micrometer) limits the overall charging range from a low of 10 grains (dependent upon powder density) to a maximum of approximately 50 grains. As a result we do not expect this model to be the proper choice for everyone. If, however, you are a serious competitive shooter and your loading requirements are generally between 10 and 50 grains, this is certainly the measure to choose.

REDD3300 \$196.95

REDDING MODEL NO. 5 POWDER TRICKLER

Turn the knob and you add powder to the scale pan a granule or two at a time. Brings underweight charges up to accurate readings fast. Solid, stable, low center of gravity. A full pound of solid steel - it will not squirm all over your bench! Ideal height for most powder scales.

REDD5000 \$23.95

REDDING T-7 TURRET PRESS

"Cast iron construction, powerful compound linkage and a rigid seven station turret combine to make the Redding T-7 the best turret press ever!"

The design criteria was to create the ultimate turret press. The Redding engineering team started with their time proven cast iron construction and turret support that is second to none. They added powerful compound linkage with over 3.8" of ram travel. Another station was added to the turret for even greater versatility and an optional "Slide Bar Automatic Primer Feeding System" was designed. After adding a few more subtle refinements and built with the precision you would expect from Redding, we are confident this is the best turret press ever.

REDD67000 \$302.95

REDDING BIG BOSS II RELOADING PRESS

These top of the line single station presses have the largest window opening and longest usable ram stroke of any in their class.

Both the original Big Boss and the new Big Boss II reloading presses have all the desirable features of the "Boss" reloading press, but are built on heavier frames with a 1" diameter ram and longer 3.8" usable ram stroke for reloading the largest magnum cartridges.

The Big Boss II now features the unique Redding "Spent Primer Collection System" used on the T-7 and Ultramag presses.

REDD97000 \$204.95

REDDING BIG BOSS PRESS

These top of the line single station presses have the largest window opening and longest usable ram stroke of any in their class.

Both the original Big Boss and the new Big Boss II reloading presses have all the desirable features of the (Boss) reloading press, but are built on heavier frames with a 1" diameter ram and longer 3.8" usable ram stroke for reloading the largest magnum cartridges.

REDD79000 \$175.95

REDDING EXTENDED SHELL HOLDER

Extended shell holders are required when trimming short cases under 1 1/2" O.A.L. They are machined to the same tolerances as the standard shell holders except they're longer.

REDD115 \$17.49

REDDING EZ FEED SHELL HOLDER

REDD110 \$11.49

REDDING NATIONAL MATCH DIE SET

The success of Redding specialized National Match Die Sets has created the demand for them to offer additional options beyond the limits of sanctioned cartridges to meet the needs of other precision oriented AR platform shooters. The name change (NM-C) indicates that all of the National Match Die Sets are now supplied with carbide size buttons. The sets include: a full length Sizing Die with carbide size button, the Competition Bullet Seating Die and a Taper Crimp Die.

REDD39 Starting at \$184.95

REDDING DELUXE 3 DIE SET

The rifle sets contain a full length sizing die, neck sizing die, and a bullet seating die. The full length sizing die features a decapping rod assembly with neck expander. The expander die includes a neck expanding plug and the seating die features a built-in crimping ring and seating plug. Made in the USA.

REDD84 Starting at \$88.95

REDDING FULL LENGTH DIE SET

The Redding 2-Die Set contains a full length sizing die with decapping rod assembly with a neck expander and seating die with bullet guide, built-in crimping ring and seating plug. All Redding products are produced with the highest quality materials and are thoroughly inspected to deliver the best product. Shell holder sold separately. Made in the USA.

REDD80 Starting at \$52.95

REDDING TYPE S MATCH BUSHING FULL DIE SET

The Redding Type S Match Bushing 2-Die Set maintains exact control of the case neck while full length sizing and uses the same interchangeable bushings (.001" increments) as those used in other Redding Bushing Style Neck Sizing Dies. Includes the Type S Bushing Full Sizing Die and the Competition Seating Die. Bushing and shell holder are sold separately.

REDD36 Starting at \$161.95

REDDING LARGE OR SMALL UNIVERSAL DECAPPING DIE

The small decapping die will handle 22 through 50 caliber cases with lengths up to 2.625". An optional decapping rod for this die is designed to work with all 17 caliber cases and will accommodate the small .060" flash holes found on the BR and PPC cases. For longer case lengths up to 3.0" use the large decapping die. The large die will not accommodate a neck diameter of less than 25 caliber.

REDD69200 \$18.95

REDDING TYPE S BUSHING FULL DIE

The Redding Type S Full Length Sizing Die sizes the entire case while maintaining exact control of the case neck. Features an adjustable decapping rod that allows adjustment of the bushing position and a decapping pin retainer that enables neck sizing without the use of the size button for those who turn their case necks for uniformity. Shell holder sold separately.

REDD77 Starting at \$58.95

REDDING COMPETITION SEATER DIE

The Redding Competition Seater Die has solved the concentricity problems inherent in other seating dies of this type. Tighter manufacturing tolerances have been made possible due to the details of the patented seating stem system. The bullet guide to seating stem fit is so precise that the seating stem can actually be demonstrated to "float" on a column of air. The seating stem is precision ground to exactly match bullet diameter. The micrometer is calibrated in .0001" increments for precise seating depth and is infinitely adjustable (without clicks).

REDD55 Starting at \$134.95

REDDING PREMIUM DELUXE DIE SET

The two die Premium Die Set has a Full Length sizing die and a Seating Die with Micrometer Seat Stem. The three die Premium Deluxe Set has those two dies but also adds a Neck Sizing Die. They are available in the most popular calibers offered in the Redding "Series A" calibers. Now, those seeking to improve their hand-loading potential need not add accessories but find all they need in the new Redding Black and Gold box of Premium Die Sets.

REDD68 Starting at \$122.95

REDDING PREMIUM SERIES FULL LENGTH DIE SET

Redding has now added two popular upgrades to a select group of dies to create the new "Premium" Die Sets. The upgrades include combining a Carbide Size Button in the full length sizing die and the Bullet Seating Micrometer on the seating die.

Two types of "Premium" Die Sets are available. The "Premium" Full Length, two (2) die set; contains a carbide Size Button in the full length sizing die and the Bullet Seating Micrometer on the seating die. The "Premium" Deluxe, three (3) die set; contains the "Premium" two (2) die set (described above) with the addition of a standard neck sizing die.

REDD66 Starting at \$97.95

REDDING BODY DIE

Body Dies are designed to full length resize the case body and bump the shoulder position for proper chambering without disturbing the case neck. They are made without internal parts and intended for use only to resize cases which have become increasingly difficult to chamber after repeated firing and neck sizing.

REDD75 Starting at \$30.95

REDDING SMALL BASE BODY DIE

For firearms with custom chamberings that are tighter than SAAMI specifications.

REDD74 Starting at \$40.95

REDDING COMPETITION NECK DIE

This die was designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button; However, carbide size button kits are available separately.

REDD56 \$112.95

REDDING FULL LENGTH SIZING DIE

The full length (FL) resizing die contains a decapping rod assembly with a neck expander (size button).

REDD91 Starting at \$34.95

REDDING TAPER CRIMP DIE

Redding Taper Crimp Dies were designed for handgun cartridges which headspace on the case mouth in which conventional roll crimping is undesirable. Also available for some revolver and bottleneck rifle cartridges, for those who prefer the uniformity of a taper crimp.

REDD85 223 Starting at \$27.95

IMPERIAL SIZING DIE WAX

Imperial Sizing Die Wax is the most recognized product of the line. Because of its superior performance and ease of application and cleanup, this product has been a favorite of knowledgeable reloaders for years. Redding brand of Imperial Sizing Die Wax 2 OZ.

REDD7600 \$8.95

REDDING STEEL NECK BUSHING

They are available in .001" size increments throughout the range of .185" thru .368", covering all calibers from .17 to .338 and clearly marked with size I.D. By selecting the correct bushing, you are now able to provide just the right amount of neck tension to properly hold the bullet without excessive resizing. Heat treated steel. The sizing diameters are hand-polished with a surface hardness of Rc 60-62 to reduce sizing effort.

REDD73 \$15.95

REDDING TITANIUM NITRIDE BUSHING

Same heat treated steel as above with the addition of a Titanium Nitride surface treatment to further increase the effective surface hardness and reduce sizing friction. Both share the same external dimensions (1/2" O.D. x 3/8" long) and freely interchange in all Redding Bushing style Neck Sizing Dies. They are available in .001" size increments throughout the range of .185" through .368", covering all calibers from .17 to .338 and clearly marked with size I.D.

REDD76 \$26.95

REDDING DEBURRING TOOL

Removes burrs and bevels case mouths for ease of bullet seating. The pilot rod feature is adjustable for different cartridge lengths and insures chamfer concentricity to the case mouth. Hardened precision ground flutes make clean, easy, chatter-free cuts. Accepts all cases from .22 to .475 caliber.

REDD9000 \$24.95

HARRELL'S PRECISION

HARRELL'S PRECISION PREMIUM POWDER MEASURE

Harrell's new PREMIUM Culver type measure is the finest measure they have ever made. It has two precision roller bearings, one on each end of the metering device, to reduce vertical play to a few ten thousandths of an inch. They also make it incredibly smooth, for a much better feel.

FEATURES:

- Four cutting edges, two left and two right hand
- Brass metering device encapsulated in a stainless steel bushing
- New space saving design with 16 ounce bottle
- 120 grain, 200 click, 6 clicks between numbers, .1 grain per click adjustment, easily converts to 4 clicks

HARLPPM \$264.95

HARRELL'S PRECISION BR PREMIUM POWDER MEASURE

This new benchrest premium measure adds to Harrell's premium roller bearing line of powder measures. It has the same accuracy of all their measures, the durability and smoothness of their premium measures, and comes in a smaller package.

HARLBRRPM \$239.95

IMPERIAL DRY NECK LUBE

For use inside and outside the case neck to reduce drag on both the die and size button without concern of powder contamination. Packaged in 1 oz. container.

REDD7700 \$6.95

REDDING CASE LUBE KIT

(PAD TYPE)

The most popular way to properly lubricate cases for resizing and case forming. The bottom side of the pad includes non-skid feet so it won't skate all over your bench when you are using it. Kit includes 2 oz. plastic bottle of Redding Case Lube.

REDD12012 \$18.95

REDDING STUCK CASE REMOVAL KIT

Sooner or later everyone does it. Too little case lubricant (or using ordinary oil) and the case seizes in the resizing die. Usually, the rim pulls off and it is almost impossible to remove the stuck case without damaging the die. This case removal kit provides an easy solution to your problems. Instructions included.

REDD22000 \$22.95

REDDING CARBIDE BUTTON KIT - STD/TYPE S

Make inside neck sizing smoother and easier without lubrication. Now you can upgrade your die sets with a carbide size button kit. Available for bottleneck cartridges 20 thru 338 cal. The carbide size button is free floating on the decap rod allowing it to self-center in the case neck. Kits contain: carbide size button, retainer and spare decapping pin. These kits also fit all Type-S dies.

REDDCBK \$30.95

HARRELL'S PRECISION CUSTOM 90 CULVER MEASURE

Designed for varmint hunters and benchrest shooters. This measure has the same quality as Harrel's most expensive measure and meters just as accurate. A brass thumb screw holds the drop tube in place that is very easy to use. The baffle is now machined brass with a rubber o-ring design. The body is machined aluminum with a new nickel plated handle. The body is hard coat anodized with Teflon in it. This is a quality measure, don't let the price fool you.

HARLC90CM \$199.95

HARRELL'S PRECISION POWDER MEASURE STAND

- All aluminum construction
- Black anodized finish
- Adjustable height and clamping distance
- Over all length - 10 1/2"
- Adjust to fit most any bench top

HARLPMS \$59.95

**GIRAUD POWER CASE TRIMMER**

Complete power trimmer for trimming to length and chamfering high power rifle cartridge cases.

The Giraud Trimmer is a dedicated tool designed for the highpower shooter who reloads their own ammunition. The trimmer allows a reloader to maintain their required volume of prepped cases in a timely manner. Constructed out of 6061-T6 aluminum and 303 stainless steel, the trimmer is designed to outlast a lifetime. Truly a precision tool. Case Holder Included.

GIRCTR \$494.95

GIRCT-220V \$591.95

Additional Case Holder:

GIRCH (Please Specify Caliber) \$37.95

Additional Cutting Head with blade:

GIRCHB \$48.95

GRACEY**GRACEY****DIRECT-DRIVE TRIMMER**

The all-new Gracey Direct Drive Powered Case Trimmer is here. Gracey's latest generation trimmer was re-engineered and refined to bring the highest level of ease, convenience, and accuracy in a smaller package. Their new flagship trimmer now also utilizes Direct Drive technology for increased power, torque, and reliability.

Just like the original Gracey Powered Trimmer, Gracey's Gen II trimmer will save you time. It does so by trimming, chamfering, and deburring in a single operation. The trimmer can trim any bottleneck rifle case from .17 Rem to .50 BMG, and can do up to 300 cases per hour, holding them within .002 for each cartridge. The High Speed steel cutters are designed with the optimum precision, giving your projectile the best possible start on its journey to your target. Case Holder Included.

GRADDTRM \$399.95

**GRACEY POWER CASE TRIMMER WITH MOTOR**

Invented and patented by a competitive rifle shooter, this unique rifle case trimmer, powered by an industrial quality 1500 rpm motor, combines three reloading operations into one. It simultaneously trims cases to the proper set length with a 90° angle to the axis of the case, puts a chamfer on the inside of the neck, and removes the burr from around the outside surface of the cartridge neck. You can easily average 12 cases a minute with this power tool. It is simple to operate. Simply grasp the cartridge case between thumb and forefinger and insert the case into the case holder pushing it against the dual cutters and rotating the case 180°. This trimming operation is similar to sharpening a pencil and takes about as long. Available in most calibers. Case Holder Included.

C1094 \$334.95

WORLD'S FINEST TRIMMER**WORLD'S FINEST TRIMMER**

This simple hand-held device allows you to quickly and easily trim cases. Like with other more expensive case trimmers, the WFT uses the most precise method of indexing; off of the shoulder, not the base. The case fits tightly into a steel bearing which has been machined to your specific caliber. This decouples the stationary case from the spinning cutting blade and body, giving you a smooth and exact cut each and every case.

WFT \$69.95

WORLD'S FINEST TRIMMER PRECISION PREPPING TOOL

The first manually operated case prep tool that puts four tools at your fingertips. Most other designs utilize inline tools which require the user to twist their wrist or rotate the tool in their hand. The PPT consists of a knurled solid aluminum handle with a bearing mounted aluminum tool head. The tool head has four 8-32 tapped holes which accept case prep tools manufactured by most reloading companies.

WFT-PPT \$26.95

**TOOLS FOR WORLD'S FINEST TRIMMER PRECISION PREPPING TOOL**

This set of six tools for the PPT includes a VLD inside chamfering tool, outside chamfering tool, large and small primer pocket cleaner and a large and small primer pocket reamer.

WFT-PPT-TOOLS \$24.95

CREEDMOOR

STARRETT CALIPER- ELECTRONIC -W/O OUTPUT -6"/150MM - W/CASE

The Starrett EC799 Series Electronic Caliper is light, comfortable, easy-to-use, and constructed with features that have made Starrett slide calipers the machinist's first choice for many years. The EC799 offers a slim, streamlined profile, a large, clear, easy-to-read LCD display, long battery life, and function buttons for zero and inch/mm. Electronic Caliper, 0-6" (0-150mm), w/o Output, w/Plastic Case

Features:

- Last measuring position retained when shut off
- Large, easy-to-read, high-contrast LCD digital readout
- Inch/millimeter conversion reads .0005" or 0.01mm
- Zero at any position
- Integrated depth rod

STAR00142 \$157.95

STARRETT MICROMETER- OUTSIDE 0-1"

The Starrett 230 & 230M Outside Micrometer includes a ratchet stop, lock nut, carbide face, and .0-1" Range, .0001" Grad, Carbide Faces, Ratchet Stop, Lock Nut.

Features:

- Extremely hard and stable one-piece spindle
- Advanced sleeve design with staggered lines
- Quick and easy adjustment
- Quick-reading figures- every thousandth numbered on inch tools
- Reach places most micrometers cannot reach

STAR50944 \$244.95

STARRETT M1 OIL

M1 lubricant produces a micro-thin, airtight coating that simultaneously dries as it protects, avoiding dirt, grime, etc. It dries and will not attract dirt, dust or other contaminants as other leading lubricants do. 12 OZ CAN

RELOADING MANUALS

HORNADY RELOADING HANDBOOK

10TH EDITION

Featuring over 1,000 pages of reloading data, techniques and bullet information, handloaders will have access to over 200 different calibers featuring a variety of loads for the full line of Hornady bullets, from 17 caliber varmint cartridges to large dangerous game loads.

The 10th Edition also features an impressive lineup of new and expanded data. New powders include: Power Pro 2000 MR, IMR 4451 and 7977, CFE Pistol, BE-86, Reloader 23, 26, 33 and 50, Accurate LT-30 and 32, and few offerings from Shooters World.

H99240 \$34.95

BERGER BULLETS RELOADING DATA MANUAL

If you're looking for the best and most comprehensive reloading data on Berger Bullets, this is it! Also this is one of the most informative and in depth reloading books on the market. They go in to things that a lot of the other reloading books do not cover and make some eyebrow raising statements about SAAMI. Very interesting and informative! This is an excellent manual even if you don't shoot Berger bullets.

BER-11111 \$28.95

STARRETT DIAL CALIPER- 0-6"- IN PLASTIC CASE

The Starrett 120 Series Dial Calipers are the only American made dial calipers. These calipers are used by mechanics and toolmakers everywhere. Features include direct reading, ease-of-handling, reliability and accuracy making these one of the handiest measuring tools available. This series features white dial, 0-6" range and .001" graduations. 6", White Dial, Fitted Plastic Case

Features:

- Only American Made Dial Caliper
- Sharp, black graduations on the satin finished bar
- Knife-edge contacts for both inside and outside measurements
- Lock screw for dial bezel and Lock screw for holding sliding jaw in position
- Positive, split-gear anti-backlash control
- Covered rack depth rod

STAR64514 \$202.95

STARRETT ELECTRONIC MICROMETER- W/O OUTPUT 0-1"

The Starrett 3732 Electronic Micrometer is a full-featured precision measuring tool built with customary Starrett quality and workmanship. The 3732 series includes a large, easy-to-read, high-contrast LCD digital readout for clear readings. With its automatic OFF functionality, smooth friction thimble for uniform pressure, and balanced frame design, Starrett products provide comfortable and accurate measuring. Its no-glare satin chrome finish minimizes annoying surface glare under bright lights indoors. 0-1"(0-25.4 Approx mm), 0.00005"(0.001mm) Resolution.

Features:

- Large, easy-to-read, high-contrast LCD digital readout
- No-glare black wrinkle finish on frame
- Ability to zero tool at any position
- Ring-type knurled lock nut for quick and sure locking
- Micro-lapped carbide measuring faces

STAR12268 \$140.95

LNL AMMO CONCENTRICITY TOOL

Make bullet runout a thing of the past with the new Hornady Ammunition Concentricity Tool. Hornady never ceases to find ways to provide unmatched accuracy in every facet of the shooting experience. The new Ammunition Concentricity Tool is the first tool on the market to both identify and eliminate bullet runout. Just place ammunition in the tool, roll it, identify runout, and use the dial indicator to adjust runout to zero! It can be used to true-up factory ammunition, too.

H050076 \$109.95

LNL POWDER MEASURE

The Lock-N-Load powder measure offers the most flexible operation and the widest range of any powder measure. It ranges from .5 - 265 grains of powder (special metering inserts and rotor required). Metering inserts can be changed with the push of a button. Comes with standard rotor and metering insert.

H050069 \$69.95

HORNADY LNL QUICK TRICKLE

For handloaders who want "hands-on" accurate control of their powder charges, the Lock-N-Load Quick Trickle provides an excellent way to deliver an initial large volume powder charge. This versatile powder trickler features hand operated high and low speeds with up to a three-to-one gear ratio. Combined with double-sided, sealed ball bearings that prevent stray powder from impeding operation, the Quick Trickle is the smoothest operating powder dispensing tool for your reloading bench.

H050101 \$85.95

KINETIC BULLET PULLER

Removes bullets from cartridges without damage. The hollow head captures the bullet and powder for reuse. Can be used on any rifle or pistol cartridges up to 45 caliber.

H050090 \$27.95

HORNADY DIE SETS

Check online for availability and pricing

HORNADY ONE SHOT SPRAY CASE LUBE

The Hornady One-Shot Case Lube is the most popular case and tool lube on the market. The One-Shot Case Lube is clean, non-sticky, quick and easy to use, and the non-petroleum wax will not contaminate powder or primers. The aerosol spray can allows you to lube an entire block of cases in one shot.

H9991 5 oz \$9.95

H99913 10 oz \$14.95

Hornady

HORNADY LNL COMPARATOR BODY

Measuring cartridge lengths across bullet tips is not a reliable or repeatable method for measuring loaded rounds. It's common for variations of up to .025" to exist from one round to the next.

Hornady's Bullet Comparator solves that problem by measuring rounds from a reliable surface on the bullet, the ogive, to provide consistent, precise measurements of your rounds. The Bullet Comparator is also used to check uniformity of bullets from base to ogive.

HB2000 \$24.95

HORNADY LNL COMPARATOR INSERT

HLNL-INS \$7.95

HORNADY LNL OAL GAUGE STRAIGHT OR CURVED

Regulating seating depth and the resulting "jump" to the rifling is widely regarded as fundamental to improved accuracy. A few thousandths of an inch change between the bullet and the rifling can make the difference between average accuracy and real tack-driver performance. To use the Lock-N-Load O.A.L. Gauge, you will need a Modified Case (sold separately) to fit your firearm's chamber and thread it onto the gauge. These specially prepared modified cases are threaded at the case-head and have a .002" oversized neck to accept the same bullets you intend to load.

HORC1000 \$33.95

HORNADY LNL MODIFIED "A" CASE

The Hornady Lock-N-Load overall length gauge modified "A" case, is made to measure the bullet relationship to the lands of the your barrel when using the Hornady Lock-N-Load overall length gauge. These are specially prepared modified cases that are threaded at the case-head and have a .002" oversized neck to accept the same bullets you intend to load.

HORACASE \$5.95

LNL DIE BUSHING 3 PK

Maximize your reloading time with the Lock-N-Load quick change bushing system. The Lock-N-Load reloading system is a patented quick change bushing system that lets you change dies with a simple flick of the wrist. With Lock-N-Load technology in your reloading press, you can stop loading, change dies and start loading another caliber in SECONDS.

H044093 3PK \$15.95

H044094 2PK \$9.95

HORNADY CAM LOCK TRIMMER

No other case trimmer in this price range features a micro-adjustable cutting head! Based on the proven design of Hornady's earlier case trimmer, this new model is packed with many other valuable features Hornady customers have been asking for.

H50140 \$74.95

FORSTER

FORSTER CO-AX PRESS WITH S JAWS

No need to complicate the reloading process. The Co-Ax Press keeps it simple while still delivering famous Forster precision. The Forster Co-Ax Loading Press comes with several unique features that help make it truly one of a kind, including:

- 1) Snap-in and snap-out die changing.
- 2) A positive spent primer catcher system.
- 3) Dual floating guide rods to help ensure perfect alignment.
- 4) Because there is absolutely no torque on the head of the Co-Ax Press, long life is the rule rather than the exception.
- 5) The Co-Ax Press delivers perfect alignment of the die and the case because the shell holder jaws are designed to float with the die.
- 6) The Co-Ax Press accepts any standard 7/8" X14 reloading die, some with existing locking rings.
- 7) The unique top priming device seats primers to factory specifications.
- 8) The top of the stroke provides a rock solid stop for consistency.

FOR28271 \$334.95

FORSTER ORIGINAL CASE TRIMMER

THE OLD STANDBY FOR MOST CALIBERS!

Trims most standard calibers from 0.171" to 0.459" - fits from 5.7 x 28 all the way to 45-70. Includes both coarse and fine trim length adjustments that will maintain 0.001" repeatability. Trimmer has 0.490" diameter Cutter Shaft (17 cal. Cutter Shaft required for 17 cal.) 5.375" long base. Accommodates all six case trimmer accessories. Plus, Forster manufactures the only Case Trimmer that holds the case in a Brown & Sharpe-type collet - keeping your trimming depth consistent, even when the rim diameter varies. The Original Case Trimmer requires a Collet and Pilot for each case, ordered separately. Collets #1 through #4 are compatible with the Original Case Trimmer.

FOROCT10 \$74.95

FORSTER NECK SIZING DIE

For reloaders who choose to retain the fire formed dimensions of their cases rather than resizing the entire case, neck sizing-only dies fit a definite need. Although they only work the necks of cases, they do eliminate some problems associated with excessive headspace. Neck sizing can also prolong case life.

FOR0673 \$40.95

FORSTER ULTRA MICROMETER SEATER DIE

The Ultra Micrometer Seater Die is a non-crimping style seater die (except for the 30-30) that holds the bullet and case in perfect alignment while the bullet is press-fit seated. A handy micrometer fixes the bullet seating depth to your specifications. Includes all the popular straight line seating features of the original Bench Rest Seater Die plus an ultra-accurate micrometer for adjusting bullet seating depth.

FORMS \$82.95

FORSTER STAND BULLET PULLER W/O COLLETS

Tough, rugged, and dependable. Pulls bullets as a result of a reloading problem or because standard ammunition requires alteration. Will not slip; the loading press pull actually tightens the grip on the bullet as it is removed. Sure grip reduces chance of damage, meaning the reloader can salvage more components and save money.

FORBP101 \$18.95

FORSTER CO-AX PRIMER SEATER W/ E-Z-JUST SHELL HOLDER JAWS

Forster Co-Ax Primer Seater is designed so the operator can eliminate all slop when working with a specific cartridge. That translates into perfect seating, reliable ignition and reduced misfires. No additional Shell Holders are required. The E-Z-Just jaws close to securely grip most modern rifle and pistol cases with a rim thickness of .045" to .072". Other features include a built-in primer flipper tray. Large and small primer tubes have an open slot and primers stack sideways for added safety. (Small holds 52/ Large holds 41)

FOR11521 \$82.95

FORSTER BUSHING BUMP NECK SIZING DIE KIT

When you order a Bushing Bump Neck Sizing Die Kit, you receive:

- A top quality, hand polished Forster die to match the caliber of your firearm and three bushings, pre-selected by the Forster staff.
- All bushings are machined to a "smooth as silk" interior finish.
- A durable case to protect your investment and to simplify bushing storage.

FOR2225 \$84.95

FORSTER BUSHING BUMP NECK SIZING DIE

The Bushing Bump Neck Sizing Die brings an advanced precision level to hand loaders by allowing you to precisely control the amount of neck sizing tension in your reloaded cartridge brass. The Bushing Bump Neck Sizing Die improves accuracy and prolongs case life because the necks are sized down as little as necessary while still "bumping" the shoulder of the case to maintain overall case concentricity and cartridge headspace length.

FOR22673 \$59.95

FORSTER FULL LENGTH SIZING DIE

Because they offer maximum flexibility, most reloaders start their collection of Bench Rest dies with full length sizers. The die sizes the case neck, shoulder and body and expands the neck and removes the spent primer.

Machined by hand with one-piece reamers. The exclusive elevated "E-Z" out expander ball system makes the difference in this sizing die.

FOR3573 \$40.95

FORSTER BENCH REST SEATER DIE

More than twenty years ago, Forster/Bonanza obtained U.S. Patent #3,440,923 for the design of the original Bench Rest Seater Die. That patent covers the use of a specially machined, close fitting chamber that holds the case, the bullet and the seating stem all in perfect alignment. This innovative chamber design is still the hallmark of our Bench Rest Seater Dies, because it's the premier system of all the so-called "in-line" seater systems that actually supports the entire outside diameter of the sized case rather than just the bullet and case neck.

FOR2773 \$54.95

PRECISION SHOOTING PRODUCTS

K&M ARBOR PRESS

The ability to "feel" the bullet as it is seated into the case neck is very important to achieve consistency and accuracy. The newly designed toggle link arbor press has a very smooth and much improved feel to provide the reloader that critical sensitive feedback. Compact size allows for use on your loading bench or at the range. Mounting holes are provided in the base if you choose to hard mount to your loading bench. Base size 3.5" x 5", Height - 11". Working height is adjustable from 0"-7.5" or 0"-6" when used with a force pack. 1" press stroke. Use the K&M die base when using a neck sizing die. The neck tension the cartridge neck applies on the bullet is very important for on target consistency. The force required to seat the bullet is an excellent way to quantify the consistency of your neck tension. To do this, use the force pack and a standard .001" dial indicator to read force in 1lb increment (.001"=1lb).

KNMAP \$149.95**K&M STANDARD FORCE PACK****FOR ARBOR PRESS**

Use the standard force pack with .001" resolution dial indicator. Each .001" increment equals 1lb of force. Force range is 0-150lbs. Easy to install on our new style arbor press.

KMFP150 \$59.95**CONTROLLED DEPTH TAPERED REAMER**

K&M is proud to introduce an improvement to a long standing superb case mouth chamfering tool with a newly designed handle that provides improved depth stop fingers and a much needed set screw adjustment for precise cutter depth control. They still incorporate the same great cutter selection that uses a 4 degree taper per side that yields the finest case mouth chamfer for bullet seating for the competitive benchrest shooter and the demanding sportsman alike. The small tool uses a 3 flute cutter that chamfers cartridges from .17 caliber up to 6mm. The large tool uses a 6 flute cutter that chamfers cartridges from 6mm to .338 caliber.

KMCDTR LG \$46.95**KMCDTR SM \$46.95****WHIDDEN GUNWORKS****WHIDDEN CLICK ADJUSTABLE DIES**

As handloaders have become more aware of shoulder bump and proper adjustment of the sizer die in recent years, there has become a need for an easier way to adjust the sizer die properly. Until now there have been few options other than trial and error to get the shoulder setback correct. Anyone who has done this can attest that it's a slow and imprecise job!

Whidden Gunworks has solved the problem with the new patent pending Click Adjustable Sizer Die. This die and lock ring work together to give the user a clicking feel to the adjustment just like a high end rifle scope. Each click moves the shoulder bump .001" so you can easily find the exact shoulder bump that you desire.

Included with the Click Adjustable Sizer Die is a Shoulder Bump Gauge. This gauge attaches to standard calipers and allows measurement from the case shoulder to the base. Using the Shoulder Bump Gauge with the Click Adjustable Sizer Die will make the proper sizer die setup easier than ever before.

WHI-SETAB, WHI-SETAN,**WHI-SIZAB, WHI-SIZAN \$121.95-\$224.95****Whidden Gunworks**

TECHNOLOGY APPLIED TO THE ART OF SHOOTING

**K&M PRIMER POCKET CORRECTION TOOL**

Designed with a drive shank to be used with your cordless screwdriver and/or either of K&Ms handles. K&Ms primer pocket correction tool uses a carbide cutter with a preset depth, ensuring you consistently square the primer pocket bottom. Large Rifle set to .131" depth. Small Pistol & Rifle set to .122" depth.

KMPPCT Lg Pistol \$22.95**KMPPCT Lg Rifle \$22.95****KMPPCT Sm Rifle \$22.95****K&M HANDLE FOR MANUAL OPERATION****PRIMER CORRECTION TOOL**

Pocket Correction Tool Handle for Manual Operation.

**KMPCTHAN \$6.95****K&M DELUXE HAND PRIMER**

If you want the ultimate in hand priming tools - the K&M Primer Deluxe will fit the bill. Benchrest Shooters seat the primer until they "feel" it just touch the bottom of the primer pocket. Consistency is the secret to seating - with the K&M Primer/Gauge you have that consistency.

**KMPDH P \$59.95****K&M FLASH HOLE UNIFORMER****Features:**

- Reams / deburrs / chamfers
- Provides case centering / alignment
- Uniforms to pre-set, controlled depth (Independent of case length)
- Screw-on, replaceable, cutter
- Hex knob won't roll
- One tool fits all standard rifle and pistol calibers
- Made of steel and brass; no aluminum or plastic
- Tool also available for P.P.C./ B.R. calibers please specify

**KMFHU 062 \$19.95 KMFHU 080 \$19.95****KMFHU 17 \$23.95 KMFHU 20 \$23.95****WHIDDEN CLICK ADJUST LOCK RING**

The Whidden Click Adjust lock ring makes your standard dies function like a micro adjust die. The lock ring will fit on any 7/8 OD sizer of any brand with adjustable shoulder bump. It's easy to use the inner and outer ring that can rotate independently of each other. Each click is metered in true 1 thousandths adjustment and has .100 total available travel.

WHI-CALR \$44.95

DILLON XL 650 MACHINE

Truly the state of the art, Dillon's XL650 features automatic indexing and is capable of producing up to 800 rounds per hour, or more if you are using both the case and bullet feeders. With Dillon's quick change caliber conversion kits you can swap the machine from one caliber to the next in less than 10 minutes. The XL650 is available in most popular pistol and rifle calibers.

DIL65016 \$589.95

**DILLON CASEFEED ASSEMBLY W/O PLATE**

Electric casfeeder for the XL650. With it, you simply dump in a bunch of brass and turn it on. It automatically orients the brass mouth-side up, fills the case feed tube, shuts off when the tube is full, and automatically starts as the tube gets low. This is only the casfeeder. No plates are included.

DIL650CFA \$200.00

**DILLON 650 CONVERSION KIT**

Dillon XL650 caliber conversions are available for common rifle and handgun cartridges, from 17 Hornet through 458 Win mag in rifle, and 32 ACP through 500 S&W in handgun.

Includes:

Shellplate, Locator buttons, Powder funnel, Casfeed adaptor parts.

DIL65021 \$79.95-\$89.95

**DILLON 650 QUICK CHANGE KIT**

The XL 650 quick change allows you to leave your dies and powder charge set up and dedicated to a specific cartridge for faster, easier caliber changes.

Includes:

Powder measure, Powder die, Toolhead and Toolhead stand.

DIL650QC \$116.95

**DILLON 550 QUICK CHANGE KIT**

With a quick change assembly and a caliber conversion kit (sold separately), you can convert your RL 550 Series press form one caliber to another in less than a minute.

Includes: Powder measure, Powder die, Toolhead and Toolhead stand.

DIL550QC \$112.95

**DILLON D-TERMINATOR ELECTRONIC SCALE**

The D-Terminator Electronic scale is a high precision unit with 1500 grain capacity, an anti-static wind shield, the latest in load cell technology, and included check weight. The large backlit LCD display makes reading weights a breeze. The touch screen is easy to use and maintain. The D-Terminator Scale operates off of four AA batteries or with the included AC adapter.

DIL10483 \$139.95

**DILLON RL 550C MACHINE**

The Dillon RL550C is the most versatile reloading machine in the Dillon Precision Products line. It will accommodate the widest variety of cartridges from 32 ACP up to 338 Lapua, 416 Rigby, and 460 Weatherby. The RL550C has a manually indexed shellplate making it easier to master the various steps of reloading. Caliber changes are simple and require fewer parts than other machines which makes it less expensive to convert to another cartridge.

DIL550 \$432.00

**DILLON 550/650/SDB****BULLET TRAY**

Mounts directly to the Dillon strong mount. Fits the Square Deal, RL550 series and XL650 strong mounts.

DIL22214 \$44.95

**DILLON 550/650 STRONG MOUNT**

This mount is for both the Dillon RL550 series presses as well as the Dillon XL650 presses. Mount height = 8.5 inches

DIL22051 \$50.95

**DILLON 650 CASEFEED PLATE****Large Pistol**

Used for 38 Special/357, 40 S&W, 10mm and larger cartridges. For 357 and 44 Mag, 45 Colt, use the spacer washer that is included with the electric case feeder. For 7.62x39mm, use two of the spacer washers.

**Small Pistol**

Recommended for use with 32 ACP, #2 S&W Long/32 H&R Mag, .380 ACP, 9mm/38 Super. For 30 Carbine, use two of the spacer washers.

Large Rifle

Recommended for 22/250, 308 Win, 30-06 Springfield, 30-30 Win, 45-70 Gov't, most standard belted magnums and related cartridges.

Small Rifle

Recommended for .17 Rem, 204 Ruger, 222 & 223 Rem and related cartridges.

DIL650CFP \$39.95

DILLON 550 CONVERSION KIT

The Dillon RL 550C will produce match-quality ammo for over 160 different rifle and pistol calibers. These kits fit the RL300, RL450, RL550 series, AT500 and BL 550 machines.

This Kit contains: Shellplate, Powder Funnel and Locator buttons.

DIL55020 \$47.95-\$57.95

DILLON ELIMINATOR BEAM SCALE

Magnetically damped 511 grain capacity accurate to within +/- 0.1 grain.

CREEDMOOR® DELUXE HARDBACK SHOOTING COAT

We're constantly striving to improve our products to help you improve your scores. Designed with the input from shooters across several disciplines, the Deluxe Hardback is said to be the most comfortable coat out there. By designing the sleeves to fit tighter to the arm, the contact point where your elbow meets the inside of the sleeve will remain the same between shots. With non-tapered sleeves, there's an opportunity for the arm to shift inside of the sleeve between shots. Depending on how your elbow rests on the padding, this can cause an inconsistency in your natural point of aim. The spandex on the inside bend of the arm allows the forearm to come closer to the bicep in the standing position without the leather or Cordura material getting in the way. It also prevents hot brass from falling into the sleeve unlike the zippered opening found on other coats. We've added a larger rubber pad on the support side of the body to provide more rubber on rubber contact in the standing position to keep that position locked. Made in Anniston, AL.

CREEDMOOR® DELUXE CANVAS SHOOTING COAT

This coat made of #10 Soft cotton canvas duck has all of our cloth coat designs incorporated into one. It features a raglan sleeve design, pulse pad, and textured rubber backed by 1/4" felt padding. The front closures are equipped with quick release buckles and adjustable straps. Two front pockets and a cargo pocket provide ample carrying space. A large rubber body pad is provided for slip-resistant arm contact required when shooting from the standing position. This coat's design makes it ideal for juniors or beginning highpower shooters.

AHG-ANSCHUTZ/CREEDMOOR® LEATHER ISU SHOOTING COAT

Along with AHG-Anschutz, we have created this high quality leather shooting coat. It offers great support for your shooting positions while providing flexible material in areas that typically bind. Tension straps on the shooting shoulder to prevent the material bulge in prone position. The non-slip rubber on the elbows and shoulders provide positive positions and prevent slippage. An adjustable sling holder makes for quick adjustments. Movable Screw-Fix buttons allow for individual fittings. Color: Black/Grey. Men's even sizes 32-52 (Right Handed Shooter only)

AHGLEA Reg. \$210.95 SALE \$170.00

AHG-ANSCHUTZ/CREEDMOOR® CANVAS & LEATHER ISU SHOOTING COAT

We collaborated with AHG-Anschutz to design this high quality canvas and leather coat. Rigid canvas with suede leather front panels provides maximum support in all shooting positions. Tension straps on the shooting shoulder to prevent the material bulge in prone position. The non-slip rubber on the elbows and shoulders provide positive positions and prevent slippage. An adjustable sling holder makes for quick adjustments. Movable Screw-Fix buttons allow for individual fittings. The Black, Blue and Red color combination makes a statement on the firing line. Men's even sizes 32-52 (Right Handed Shooter only). 34-44 (Left Handed Shooter). Some ladies sizes also available.

CREEDMOOR®

NEW CREEDMOOR ROLL UP AMMO MAT

The Creedmoor 100 Round roll up ammo mat is a convenient way to single load rounds off the bench or off the ground. The roll up mat has 4 rows of 25 elastic loops and nylon strips to secure and protect the bullets. The roll up ammo mat is sized to fit behind the bipod of the rifle and in front of the shooter while in prone on most rifles. It is an easy way to keep separate loads organized. The back of the mat is made with a sturdy non-slip rubber to hold it in place while loading. Two heavy duty nylon straps secure the roll when transporting and a center strap with heavy-duty Velcro for extra security. A heavy-duty carry handle on the top perfectly balances the roll when fully loaded to make carrying it easy. The loops are made for 30 cal or alike cartridges. You can choose any color 1000 denier Cordura that we offer. Made to order may take 15-20 days to ship. Dimensions 18.5 x 17 rolled out 3 x 3 x 17 rolled up.
